Beyond wellness sessions with carefully selected experts in care, yoga, and meditation, she offers creative concierge services, like exclusive dinners under the stars with a private chef in the pine forest, or hot-air balloon take-offs from the estate. Flexibility is key, allowing guests to swim, relax in the spa or sauna, and enjoy music at any hour, 24/7. Naf excels in creating magical moments, ensuring every aspect of the stay reflects the sophistication and exclusivity of "Lost in Sensations."

Accommodations Touched by the Breath of Artists

The **"Space Odyssey" Bubbles**: Inspired by Kubrick's genius, this bubble complex transports guests to a galaxy of comfort and vintage design. (Spa and private terrace)

The **"Out of Africa" Lodge**: Reminiscent of Karen Blixen's work, this space offers a sensory safari without leaving the Gironde, with each element carefully chosen to recall the Kenyan underwoods. (Spa and private terrace)

The **"Bohemian Chic" Yurt**: A 66 sqm space where Mongolian tradition meets bohemian chic, an invitation to escape and dream. (Spa and private terrace)

Two themed suites and a room complete the accommodation offerings: the **GatsbySuite**, a journey into the luxury of the 1920s in New York, evoking Fitzgerald's spirit, and the **RivieraSuite**, a tribute to Mediterranean Belle Époque resorts. Finally, the **GarçonnièreRoom** offers an intimate and secret experience.

LOST IN SENSATIONS

Conviviality and Well-being at the Heart of "Lost in Sensations"

Guests are invited to reconnect with the five senses through five dedicated spaces: salons of taste, smell, touch, sight, and hearing, an ode to conviviality where music is played and enjoyed amidst enthralling conversations. Additionally, temporary exhibitions (photos, paintings, sculptures) themed around Humanity and its place in nature are organized.

An Intimate Setting for Eclectic Stays

"Lost in Sensations" stands out for its commitment to exceptional service, hosting up to fifteen guests. This capacity ensures an intimate, tailor-made experience, perfect for various occasions: romantic getaways, family stays, celebrations like weddings or bachelor parties, to more formal professional events like executive seminars. "The estate's size and the variety of accommodations provide a perfect canvas for remarkable and surprising stays," concludes Naf, emphasizing that every moment here is filled with sensory discoveries.

A Feminine and Inspiring Entrepreneurial Odyssey

At the heart of this concept lies an entrepreneurial vision carried by an extraordinary woman: Naf, the founder of "Lost in Sensations." Her passion for decoration and design led her around the world, before finding the ideal location in Gironde. "Here, the dazzling light and untouched nature have shaped the perfect cradle for my project," she shares. This vision is echoed by her Canadian husband, who finds a connection to his native Canada in the majestic pine forests of the Southwest, adding an international romantic touch to their venture.
